GETTING THINGS RIGHT

One of the Million Difficulties a Newspaper Man Meets.

CHASING AROUND FOR FACTS.

POETRY OF PROGRESS.

Weaving Life-Lines for the Saving of Maysville's Commercial Interests.

Written for the Public Ledger.

Old Maysville's business interests before you now.

Within every heart and home in our land lies threads that come and go.

Will you take hold of these threads and a rope of them twice.

It is a task that will bring "Life-line."

Too strong for a student, we.

This city's limit encircles our home.

With import to earn this invitation is life.

If you will only look at it.

Your homes and your purse, your griefs and your joys.

On your actions and the means you employ it lifts off the stout.

If you'll look, see, act, mean to this city never fail.

Tell to me to do it, never act, strive.

With a bound, up and onward it will go.

His fate depends upon another's we know.

Our own on our neighbors', whether we will or no.

Or now—

The City Editor begs to be heard in self-defense.

A few brief moments after the occurrence the master was reported to this office, with the information that Mr. Coleman was an employee of F. I. L. M. L. R.

The City Editor forthwith sought Mr. Lane and asked for particulars.

Mr. Lane promptly informed him that no man as Mr. Ben Coleman was in his employ, but if he was the City Editor—would just step over to the corner of Second and Market, where three men were talking in a group, that at least two of these men could tell the name of the man who was hurt and give all the particulars.

The City Editor immediately struck up a 25¢ gait for the crowd in question.

Strange to say—or perhaps it is not strange, either—neither one of the three could tell the name, color, size, sex or condition of the unfortunate person, though all three had heard that somebody had been more than hurt somewhere about as ignorant as could be.

For a following half hour the most strenuous efforts failed to elicit any information.

Yesterday morning, however, what was thought to be positive information was brought to the office of the facts stated in the original item.

The party conveying this information said then, now, say and say we will continue to say that Mr. Robert Taylor has the contract to erect the cold storage building in the Fifth Ward, and that Mr. Coleman is employed by Mr. Taylor.

So much by way of explanation; and it only shows the many difficulties that a newspaperman encounters in trying to chase down even an unimportant item in order to give the facts absolutely correct.

The City Editor does not mean that Mr. Coleman's good friend who supplied the later information is not correct, but is obliged to give full credit to the real facts, the Fifth Ward, and that Mr. Coleman is employed by Mr. Taylor.

P.S.—To be sure each of the real facts, the City Editor left a bed and made a personal visit to the伤者, and Wood-Buchanan, and after examining the crack made in the atmosphere by the falling gentleman, finds that the accident occurred at Parker's Stable on Sutton street—nearly a mile away from where the valuable volunteer reporters reported it to have taken place.

If there is not a soft place in Heaven for a newspaper reporter there ought to be, for he has enough of Hell on earth.

If you don't think so, just drop around and take the job for a few weeks.

UNCLE SAM AND GREATER AMERICA

The LEXICON doesn't owe him a cent—but to the Republican party at the Republi-

can party owes to THE LEXICON.

Let's see. Did SAM PUGH or MORE

THOMAS ever hold any office—that they

couldn't get? If they didn't, then SAM

ought by all means to be made Governor.

The Hon. SAM J. PUGH has THE LEXI-

CON for the first installment

of watermelon and onion seed for early

spring planting. The turnip and lettuce

will be along later.

SCOTLAND seems a strange place to find

a statue of ABRAHAM LINCOLN, and yet

there is one there. It adorns a monu-

ment erected in the old Colton Burying-

ground, Edinburgh, to the memory of

the Scottish-Americans who fought in the

American Civil War.

THE Walthamville Cotton Mill and the

cotton mills at Linwood and Saunders-

ville, all in Massachusetts, announced an

advance in wages to take place April 3d.

About 1,000 operatives are affected. As

yet Mr. BAYAN and his Free-traders

haven't heard of these matters.

NORICK has been posted to the Ohio

Iron Company's plant at Zanesville, O.

announcing that all wages will be in-

creased 10 per cent on April 1st. The

increase affects about 200 men. The

plant was idle for five years, but resumed

about a year ago, and has all the work it

can do.

JUDGE GIMMERS at Chicago decided that the act of the Illinois Legislature in 1897 giving Veterans of the Civil War preference over others in Civil Service examinations is void because it gives a special privilege. The leading veterans took a stand in favor of Civil Service Law of Congress. It does as an act on all except honorably discharged soldiers and sailors, and requires also that others must obtain 70 percent in examination, while soldiers and sailors get off with 65 per cent. But what would the country do without its able Judges and jacks a**es.

REAR ADMIRAL HIGGINSON furnishes a pleasant contrast to the other naval officers mentioned in this column. He is in duty bound to other naval officers. He declined to accept an offered promotion, on the ground that other officers, who served in the Santiago operations, go unwarded, owing to the failure of the Senate to act on the promotions recommended by the President. A similar course is pursued by Lieutenant AARON WARD. These are the kind of men who ought to be called upon to testify in regard to "tem- bained heet," instead of the skunkers and "kicker" whose whinnings and whimperings have disgruntled all real soldiers and sailors.

SIXTH DEGREE was in Louisville a few days ago and had little to say when he was asked if he had any objection to attending a peace conference of Republican and to meeting Governor BRADLEY.

"I think," said he, "that every thing and every man should be subservient to the good of the Republic." No personal strife should be permitted to injure the party in the state or elsewhere. That's the way I feel about it."

And yet he was definitely frustrated at the mouth and violently opposed the appointment to office of any man who was supposed to be on speaking terms with Governor BRADLEY. So he feels about it one way and acts about it in another way.

The total loss of life in the American Army, by wounds and disease, from May, 1868, to February 28th, 1899, was 5,781, according to the reports to the Adjutant General's Office. This is considerably less than the Union loss in a single day at the battle of Antietam; and yet the volunteers who went to Cuba would make believe that they had been engaged in real war!

The VANCEBURG Sun is booming Hon. SAM J. PUGH for Republican candidate for Governor of Kentucky. This will not interfere in the least with Sam's present position in Congress; or with his plans for appointment to Federal Judge in case another District is created in Kentucky, with his desire to "hog" any old office that may become vacant during the remainder of his life.

HERE is what the mud rods of Mayville have cost each year for thirteen years:

Total	\$101,45
1887	8,007.41
1888	8,284.17
1889	6,109.78
1890	5,128.85
1891	5,128.73
1892	6,258.12
1893	6,660.75
1894	21,073.36
1895	10,496.98
1896	6,831.10
1897	4,572.30
1898	4,572.30
1899	3,749.45

An average of \$7,789.39 for each year. How do you like the exhibit, Messrs. Taxpayers?

And what have you to show for your outlays?

At a meeting of the Republican Committee for the Third Railroad Commission District of Kentucky, held at Lexington on Saturday, February 19th, 1899, regularly called for the purpose of issue the time and place for holding a convention to name a Republican candidate for Commissioner of said district, the following resolutions were adopted and ordered passed:

WANT WAR ENDED

Appeal to the People of the United States Issued by Prominent Men.

MORE THAN A SCORE OF SIGNATURES.

An Attempt to Induce Our Government to Prevent Further Bloodshed in the Philippines.

The Philippines' Freedom and Independence to Be Recognized as Soon as Proper Guarantees Can Be Had of Order and Protection.

BOSTON, March 15.—An appeal to the people of the United States urging "all lovers of freedom" to co-operate with them in an attempt to induce the government to suspend hostilities in the Philippines and confer with the Philippine leaders with a view to preventing further bloodshed by recognizing their independence upon the guarantees of protection given by the natives, has been issued on the part of more than a score of prominent men. The preamble describes the attitude of this government and of President McKinley toward the Philippines before and since the war, and asserts that there is no reason for a change of opinion on the part of the anti-imperialists and on the contrary every reason for a continuance of the protest against the spirit of militarism and racialism which has been the co-operation to the following words:

"First.—That our government shall take immediate steps toward a suspension of hostilities in the Philippines and a conference with the Philippine leaders, with a view to preventing further bloodshed upon the basis of a recognition of their freedom and independence as soon as proper guarantees can be had of order and protection to propound."

"Second.—That the government of the United States shall render an official assurance to the inhabitants of the Philippine islands that they will encourage and assist in the organization of such a government in the islands as the people thereof shall prefer, and that upon its organization in a stable manner the United States, in accordance with its traditional and prescriptive policy in such cases, will recognize the independence of the Philippines and, equally among nations, gradually withdraw all naval and military forces."

The signers are ex-Governor George S. Boutwell, of Massachusetts; ex-Senator George F. Edmunds, of Vermont; ex-Secretary of State John Sherman; Senator Donelson C. Caffery, of Louisiana; Wm. Bourke Cockran, of New York; Wm. H. Fleming, of Georgia; Henry U. Johnson, of Indiana; Samuel Gompers, president of the American Federation of Labor; Frank J. GIVEN A PRACTICAL TEST.
The sectional system of third rail for street cars pronounced a success in every way.

New York, March 15.—The Murphy sectional system of third rail invention of Capt. John McLeod Murphy, was given a practical test at Manhattan Beach Tuesday afternoon, and the opinions expressed by all who witnessed the tests were to the effect that the trial was a success in every way.

The car operated Tuesday afternoon demonstrated its ability to move at all grades of speed through snow closely packed over the rails to the height of several inches and through dirt heaped up in the same way. It is claimed for this system that it does away with overhead wires and costly conduits and that the line fee does not exceed 7 and 3/4 per cent. in this way, greatly decreasing the operating expenses of the road.

DRIVING REBELS.

Gen. Wheaton's Cavalry Attacks a Filipino Stronghold in the Jungle Near Pateros.

ENEMY RETREATED INTO THE TOWN.

Later Scott's Battery Shelled the City and Woods Effectively and the Rebels Retreated.

Washington Volunteers Capture and Burn Pateros, Meeting With a Sharp Fire While Crossing the River—Our Losses Light.

MANILA, March 15.—Late Tuesday Gen. Wheaton's column encountered the enemy in such forces between Pateros and Taguig as to necessitate a change in the original plans. The cavalry attacked a rebel stronghold in the jungle, driving the enemy into Pateros. The Americans had one man killed and three wounded.

Scott's battery shelled the city and woods effectively. Later the enemy crossed the river from Pasig. Two companies of the 2d Oregon infantry crossed the right bank after a sharp engagement and then retired with three wounded. In the meantime the Washington volunteers closed in, driving small bodies of the rebels back upon Pateros. One man was killed. During the night the enemy burned strength in their theory, and late Tuesday night they induced Becker to confess.

In his confession Becker said he had killed his wife by striking her on the head with a hatchet in the kitchen of his home. He then cut the body to pieces and boiled it in a large kettle.

Becker, when first arrested, admitted killing his wife, but declared he pushed her off the Randolph street sidewalk into the lake and that she was drowned. The police have never placed any reliance in the drowning confession and have kept up their work on the idea that Becker had killed the woman in his house and made away with the body.

The finding of a portion of a human body three days ago in Becker's home gave strength to their theory, and late Tuesday night they induced Becker to confess.

In his confession Becker said he had killed his wife by striking her on the head with a hatchet in the kitchen of his home. He then cut the body to pieces and boiled it in a large kettle.

After watching the disintegration of the body for several hours, and when nothing was left that resembled human bones, Becker says he took what remained and burned it in a red hot stove, the fire having been prepared by him. The bones which would not burn he buried on the prairie near his home January 27 was the date Becker says he committed the murder. He avers the crime was not premeditated, but that he quarreled with his wife on the afternoon of that date and in the heat of passion he struck her on the head with a hatchet. He also says he also was needed to cause death, and after that had been struck, the sausage maker says he thought of the way to dispose of the remains of his wife in order to destroy all chances of detection.

The piece of lung and a portion of collar which were found under the barn and which the police believed to be strong evidence against Becker, he says, could not be any part of the body of his wife as he is certain that he destroyed every particle of flesh, and he avers the bones which he was told was also entirely burned.

The police will look for the woman's bones Wednesday. They refuse to tell at present the location of the spot where Becker says they are buried.

A RADICAL CHANGE.

Emporer William Assumes Supreme Command of the Navy. Office of Commander-in-Chief Lapses.

BERLIN, March 15.—The official Navy Gazette, reorganizing an independent section, the higher administration of the navy. Henceforth the emperor holds supreme command, and the office of commander-in-chief henceforth lapses, and the existing staff of the commander-in-chief become independent under the title of admiral's staff.

The chief of the navy becomes directly subordinate to the emperor, and the admiral's staff, besides its ordinary duties, will occupy itself with the repair of war ships.

The order also announces the appointment of general inspector of the navy and settles certain questions regarding competence.

FULL CONFESSION

August A. Becker, the Chicago Sausage Maker, Tells How He Killed His Wife.

THIS IS HIS SECOND CONFESSION.

Murdered the Woman, Cut Her Body to Pieces and Burned the Remains in the Stove.

The Murderer First Burned the House and Pieces of Flesh in a Large Kettle Until Nothing Was Left That Remained a Human Body.

CHICAGO, March 15.—August A. Becker, the sausage maker, who has been under arrest for four weeks on a charge of murdering his wife, made a full confession Tuesday night. He said that he cut his wife's body to pieces and boiled the remains in a stove.

Becker, when first arrested, admitted killing his wife, but declared he pushed her off the Randolph street sidewalk into the lake and that she was drowned. The police have never placed any reliance in the drowning confession and have kept up their work on the idea that Becker had killed the woman in his house and made away with the body.

As the season of the year when pneumonia, influenza, sore throat, coughs, colds, etc., break out is drawing near we are to be prepared against, taking a few drops of "Answer the Purpose" or "Just as good" as "One Minute Cough Cure." That is the one infallible remedy for all lung, throat or bronchial trouble. It acts vigorously upon having H. W. Ray, advertising Postoffice.

The Mint Bureau of the Treasury decides that the world's production of gold for the year 1898 was about \$25,000,000. This is \$1,000,000 less than the amount of gold in the possession of the Government exports in that it will exceed \$25,000,000 in 1899, and that it will grow for at least a century. In 1898 the United States alone produced \$6,000,000 worth of gold.

After the discovery of One Minute Cough Cure, Ministers were greatly disturbed by coughing congregations. No excuse for it now. Henry W. Ray, advertising Postoffice.

Investigation by the Division of Gold of the Department of Agriculture shows that the value of the following year's production of gold in Norway decreased the fact that great mines may be saved by underdraining. The damage is due principally to excess of water used in the mining operations.

It is urged by the divers officers that the time be saved from underdraining by underdraining, which, though expensive, is sure to be a paying investment.

Leeches, when applied to persistent cigarette smokers, drop off dead, distinct traces of the dangerous habit are removed, and the taste for it is soon forgotten. The same experiment tried upon excessive pipe smokers resulted in no apparent injury to the leeches.

The result of an over indulgence in food or drink is a severe attack, which causes pain or discomfort, or taking a walk, which relieves the pain. Price 30 cents. J. J. Wood & Son, Druggists.

Iceland is the oldest colony possessed by Europe country. It has belonged to Denmark since 1814. Originally colonized by Norwegians in 874, it became a Republic in 1845, and was annexed by Norway in 1852. In 1860 Norway and Denmark were united, and when these two kingdoms separated Iceland remained Danish.

Give me a liver regulator and I can regulate the heart," said a genius. The druggist replied him a bottle of Dr. W. H. Ray's Little Early Risers, the famous little pills, Henry W. Ray, advertising Postoffice.
